

All images should preferably be 600dpi or if not 300dpi.  
If images are full colour they must be set up as CMYK.  
If they are black & white they must be set as grayscale.  
Please make sure that the total ink coverage does not exceed 320%.

If Pantone colours are used then please set up the artwork files as individual black layers for each colour, stating the Pantone reference number.  
Pantone colours need to be solid coated.

Preferably all images should be saved as TIFF/PDF or PSD. If this is not possible then JPEG or EPS.  
Booklets containing 8 pages or more should be set out as printers pairs (ie 8&1, 2&7,4&5 6&3)

If a barcode is being used then it should be a minimum of 32mm by 10mm  
with at least a 3mm gap left between barcode and edge of case.

Include any Cat No needed on spines, back of booklet, back of outer backcover and on cdonbody too.

Finished Artwork should be supplied on a CDR.

If you have any questions please just get in touch and we'll try to help.
